

The Lehigh Valley Branch of DVGBC Presents... **Renewable Energy Seminar and Panel Discussion**

Wednesday, March 17, 2010; 5:00 - 8:00 pm

Join us on St. Patrick's Day for Green Energy and Green Drinks!

Location:

Allentown Brew Works ~ Hamilton Room, 812-816 Hamilton Street, Allentown, PA

Schedule:

5:00 PM Doors Open

6:00 Seminar / Panel Discussion

7:00 Wrap-up and Social Networking

8:00 End of Private Function, Networking

Cost: \$20 for DVGBC Members, \$40 for Non-Members, \$5 for Students

Program:

Renewable energy systems are rapidly becoming more accessible. Come and enjoy an evening of education and networking with renewable energy professionals. This seminar will teach participants how to determine which renewable technology is right for their project. Solar photovoltaic, solar thermal, and wind energy technologies will be highlighted.

Our panel moderator format will promote a dialog on the comparative strengths and weaknesses of specific systems. Come discover specific design features and building techniques that facilitate renewable energy installations/applications. Learn how to evaluate financial feasibility of various systems and ownership models based on cost/paybacks associated with different renewable energy strategies.

Speakers:

Ron French - President of Alteris Renewables Inc.

John Guerin - Director of Energy Development, EOS Ventures
